UX/UI DESIGN

UX/UI Research │ Wireframe │ User Interface Design │ Figma

WORK EXPERIENCE

Full Stack Developer
Belivup Technology Limited
2022 – 2024 │ Jessore, Bangladesh

- Developed and delivered scalable web Applications.
- Built iconview.org using React and Next.js, featuring a 100k+ icon library, server-side rendering (SSR), and an NPM package for developers. Achieved 100% scores in performance, SEO, and accessibility.

- **Payment Integration**: Integrated secure Stripe payment systems to enable subscriptions and transactions within SaaS platforms.
- Built Belivup Official Website - Belivup.com

Head of Designer & Web Developer
Flexible Magnets
2018 – 2021 | Remote Work - Upwork
E-commerce Brand based in New York, USA. They had multiple Brands, Such as Flexible Magnets, Better Crafts, and BubbleBlastte. I've Designed and Developed 3 of their websites

- Re-designed & Developed website flexiblemagnets.net vs old version oldfm.weebly.com
- 40% sales Increased with newly designed website, images, amazon products, photos, email templates, and much more
- Developed bubbleblastte.com and listings
- Designed packages, graphics assets & elements

PROJECTS I'VE DEVELOPED

iconview.org
React & Nextjs icon library with 100k+ icons & NPM Package
08.2023 – 12.2023

- Started from Scratch using pen and paper, from user problems, gathered business and user requirements, and then started Information Architecture, Wireframe, and UX UI Design in Figma.
- Coded using JavaScript ES6, Module CSS, React 18, and Nextjs.
- Functionality includes authentication, subscriptions, stripe payment integrations, user accounts, icon search and uploads and filtering, APIs, and SVGs.
- Tech Stack - React & Nextjs, CSS Module, SSR, Rest API, Stripe, NextAuth, Neon Postgres DB, Vercel Serverless.
- Github Source Code - github.com/devs-nazmul/iconview
- Case Study - dribbble.com/shots/23417388
- Performance 100%, SEO 100%, Accessibility 100%

dev.nazmul.co
Personal Website using TypeScript, React, Nextjs & Framer Motion, Designed (in Figma) & Coded by Me, Performance 100%
01.2024 – 03.2024

- GitHub Source Code - github.com/devs-nazmul/dev.nazmul.co
- Figma Design - figma.com/file/wNUEAr5qJNEjgnSj5K95PK
- Case Study - dribbble.com/shots/24014756

wpview.org
Python Web Scraping and Automations in WordPress
01.2022 – 02.2022

- Functionality includes auto scraping themes and plugins from Google, and saving them into a database, and then auto-uploading all themes plugins into the WordPress Store.
- Case Study - dribbble.com/shots/23960245

Design24hr.com
Design & Development Agency
01.2019 – 03.2020
In 2019, I developed the site using WordPress with live chat and dedicated dashboard Including 20+ service pages
